**EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.
2. Authorization for this examiner's amendment was given in a telephone interview with Mr. Arthur J. Samodovitz (Reg. No. 31,297) on 21 June 2007.
3. The application has been amended as follows:
  - a. The claims of this application have been amended as presented in the fax received on **22 June 2007** and hereto attached.

***Allowable Subject Matter***

4. **Claims 1-4, 6, and 21-23** are allowed.
5. The following is an examiner's statement of reasons for allowance:
6. The art of record used as the basis for the previous rejection, Sonkin et al (US Pat: 7,136,868), does not expressly teach or render obvious the invention as recited in independent **Claims 1 and 21**.
  - a) As to **Claim 1**, the art of record does not expressly teach (1) determining one or more of objects associated with an application which were automatically created by a computer system including said application, nor does it teach (2) not deleting the one or

more objects associated with the one or more objects which were automatically created by a computer system including said application, when taken in the context of the claim, as a whole. Also, the art of record does not provide a basis of evidence for asserting a motivation that one of ordinary skill in the art at the time the invention was made would have modified the computer program product for resetting a computer application to combine the disclosed limitations as recited in the context of **Claim 1**.

b) As to **Claim 21**, being directed to the computer system having substantially the same limitations as **Claim 1**, this claim is allowable for the same reasoning as recited in **Claim 1**.

7. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
